SabeRex®

ABOUT US

A preferred service provider for major original equipment manufacturers (OEMs), **SabeRex** offers a wide array of technology services with capabilities across the entire United States and beyond. Backed by a management team with diversified expertise spanning industries from aerospace and telecommunications to retail, oil & gas, information technology, alternate energy and more, SabeRex provides solutions throughout a product's entire life cycle that range from simple to complex and can take our clients' products from beginning to end or anywhere in between. We have built our reputation on best-in-class, custom services in six major **Core Competencies**, which combine to create a **total-solution** approach including everything from additive manufacturing and customized kitting to flexible deployment, efficient assembly, complex repairs and expert field services.

CORE COMPETENCIES

Integrated Logistics

We Ship. We Store. We Recycle.

Take advantage of our secure, climate-controlled warehousing for your existing inventory, or add even more value by leveraging the power of SabeRex to manage your entire logistics process.

- Depot / Warehousing
- Secure, Climate-Controlled Storage
- Domestic & International Shipping
- Cargo Insurance
- Staging / Distribution
- Fulfillment / Initial Deploy
- Staggered Rollouts
- Advanced Warehouse Management Systems (WMS)
- Automated Reporting & Serialization
- White Glove Delivery Services
- B-Stock - Ship & Replace
- Reverse Logistics

Value-Add Configuration

We Source. We Supply. We Customize.

At SabeRex, we pride ourselves on the ability to provide any customized configuration your existing products may need, along with the supply chain and product life cycle expertise to support your product's evolution beyond its original design.

- Systems Imaging & Configuration
- Image Archiving
- Asset & RFID Tagging
- Data Migration
- Laser Etching & Ablation
- Software Loading
- Color UV Imaging
- M2M Device Management
- Full Decal Overlays
- Project Management
- Hard Drive Imaging
- Rack & Stack Services
- Third-Party Software & Peripherals
- Digital Signage
- POS Systems
- Purpose-Built Form Factors
- Custom System Builds
- Software Development
- Software Integration
- Store-In-A-Box Solutions
- Procurement
- Kitting
- Custom Crates & Packaging
- Component Sourcing
- Failure Analysis
- Data Destruction
- Disaster Recovery
- Asset Recovery / Disposal
- Tagging & Serial Number Reporting
- Warranty Adjudication
- Call Center Integration
- Chromebooks
- Enterprise-Class Products

Additive Manufacturing

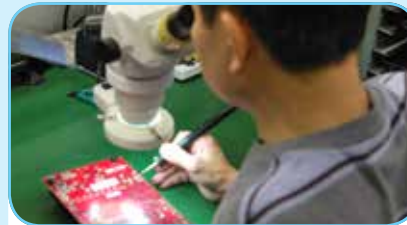

We Customize. We Build.

By utilizing Carbon's M2 printer and leveraging its DLS technology, we can customize and manufacture 3D printed parts based on key factors such as density, tension and heat capacity while maximizing efficiency and cost-savings.

High-Value Electronics Repair

We Fix. We Test.

With a focus on complex circuit boards designed for every application, our expert staff provides turn-key repair services that deliver cost-effective board replacement as well as enhancement at the highest quality to a number of industries.

Complex Contract Manufacturing

We Build. We Kit.

Whether your team is developing a single prototype or rapidly expanding to large-scale production, our staff provides customized manufacturing solutions that balance cost-effectiveness with rapid turnaround time.

Technical Field Services

We Install. We Service.

Whether off-site, at your facility or at our own, our field technicians provide every service necessary to manage your product throughout its life cycle by implementing a custom end-to-end program.
