

TYREX[®]
GROUP, LTD.

Family of Technology Companies

**Built To
Work ...
Built To Last**

ABOUT US

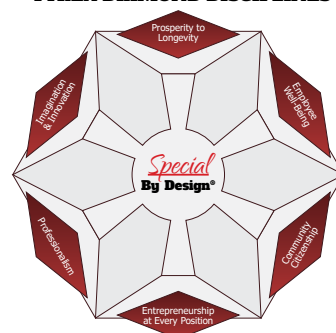

Our Philosophy

The technology companies that make up the **TyRex Family** are connected by something beyond the industry itself – something that we think is truly special. From our uncompromising commitment to quality and customized solutions for the entire life cycle of your product to our lasting relationships forged by personal commitments to our business partners, TyRex is a company built to last.

BUILT TO WORK ... BUILT TO LAST

TyRex was founded on the idea of building a company that would last 50 years and beyond, through a strong company culture that reaches beyond the boundaries of business. Our culture connects us not only to our business partners, but to each employee and our community as well. In the spirit of building lasting community relationships, TyRex became a founding partner in RecognizeGood®, a 501(c)3 organization which shines a light on the people and organizations doing good work in the community. Along with this signature long-term community endeavor, TyRex established defining principles known as the TyRex Diamond Disciplines (as indicated in the adjacent graphic and described on the back page of this brochure) which guide each and every decision we make.

TYREX DIAMOND DISCIPLINES

THE CIRCLE OF BUSINESS TRUST

Partners Not Vendors

The TyRex “**Circle of Business Trust**” philosophy is a bond between our company, our employees, and our customers. Our only true measure of success is our customer’s success. Each TyRex company and employee commits to that common goal. We view ourselves as more than vendors, approaching each project as business partners. We understand that no matter how large or small our contribution may be, we will treat it as a vital part of the customer’s ultimate success. Our goal is to foster long-lasting business relationships.

OUR HISTORY

Founded in 1995 by John Bosch, Jr. and Andrew Cooper, TyRex began in a small cubicle with the dream of building a world-class organization that, founded on sound business and ethical principles, would last 50 years and beyond. Being "built to last" remains the foundation of our business, employee, and community relationships. The union of ideas, aspirations and entrepreneurial spirits between Bosch and Cooper began as a premier cable manufacturer called the TyRex Manufacturing Group, so named after the Tyrannosaurus Rex and its characteristics of strength, courage, confidence, passion and commitment. Today, the TyRex Technology Family includes eight independent businesses and five associated entities, each focused on a specific market while able to collectively provide customized solutions for the entire life cycle of a product. The commitment to quality, innovation, and lasting relationships is what makes the TyRex Technology Family "*Special* By Design".

OUR MISSION

To provide the high-tech market with superior products and services by assisting our customers through all stages of the product life cycle, so that we may create cost-effective solutions and foster long-lasting business relationships.

COMMUNITY SERVICE

An upstanding community partner that emphasizes merging business with community, TyRex is proud to take part in a wide range of service initiatives. Some of the organizations we are closely involved with include:

TyRex is proud to be a founding sponsor of **RecognizeGood®** - a local nonprofit that provides a means for individuals, businesses and other nonprofits to illuminate selfless volunteers, charitable acts and community service throughout the greater Austin area. There are several active RecognizeGood programs that work toward this mission from different angles, but the common theme is simple – the illumination of GOOD in our community.

Mobility Worldwide is a faith-based, volunteer-powered, humanitarian, and world-wide organization with the goal of providing the Gift of Mobility for all of God's people in need. TyRex is proud to be an official Mobility Worldwide - Austin Partner, as employees come in early and volunteer their lunch breaks to assemble Mobility Carts in the TyRex facility. TyRex also assists Mobility Worldwide - Austin with things like marketing and materials sourcing.

Austin Gives™ is a community program to recognize and encourage business philanthropy in metropolitan Austin. TyRex is incredibly proud to be a member of Austin Gives, and fully supports the idea that by supporting the community we all live in, we make our businesses stronger.

OUR COMPANIES

Austin Reliability Labs

Austin Reliability Labs (ARL)

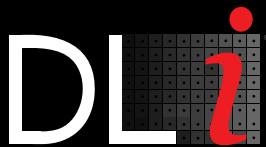

Product Reliability Testing, Consulting & Staffing

Recognized as one of the top product reliability labs in the country, **Austin Reliability Labs (ARL)** is a place where we recognize the hard work and passion that went into the design and development of your product. We have that same passion for excellence, and want to find any problems that your product may have in an effort to perfect it. We also understand that a reputation is something that builds over time, and we support that by making long-term partnerships with our clients. With that in mind, we not only write and develop all of the tests that we perform, but, unlike other labs, we also provide pass / fail reports on all of our tests and decipher the results for you in order to maximize your product's success. Led by an expert engineering staff, our ISO/IEC 17025 accredited lab provides the reliability tests as well as test strategies and consultation that your products need at the right price.

Services

- ▶ **Halt / Hass Testing**
- ▶ **Environmental Testing**
- ▶ **Qualification Testing**
- ▶ **Custom Testing**
- ▶ **Battery Life Testing**
- ▶ **Mechanical Testing**
- ▶ **Additive Mfg. Testing**
- ▶ **Consulting & On-Site Staffing**

DLi DIGITAL LIGHT
innovations

Digital Light Innovations (DLi)

World Leader in DLP® Light Exploration

Regarded as the world leader in DLP® light exploration, **Digital Light Innovations (DLi)** is a full service design and manufacturing company with extensive experience in creating unique DLP®-based solutions for a broad range of applications. We are not only experts in DLP® interface and electronic controller board design, but specialize in custom optics as well as prototype design and development.

Notably, DLi was the first to receive the DLP® Authorized Design House designation from Texas Instruments (TI). DLi has partnered with TI to design the electronic controller boards, firmware and software for the Explorer API and Control Software utilized by the best-selling DLP® Discovery™ 4100 platform. DLi also partners with TI to manufacture the DLP® LightCrafter™ 6500 & 9000 EVMs and Development Kits.

Products & Services

- ▶ **DLP® Light Engines**
- ▶ **DLP® Development Kits**
- ▶ **DLP® Optics Modules**
- ▶ **Design Services**
- ▶ **DLP® Optics Bundles**
- ▶ **DLP® Chipsets**
- ▶ **DLP® Parts & Assemblies**
- ▶ **Manufacturing Solutions**

MEGLADON
MANUFACTURING GROUP, LTD

Megladon

Fiber Optic Products & Innovation

A global industry leader in fiber optics and your premier partner for fiber optic connectivity, **Megladon** has spent over a decade developing fiber optic technology and perfecting the HLC® interconnect. Our patented technology and process results in a reference grade interconnect that is reliable, rugged, repeatable and provides maximum performance. With millions of our products deployed worldwide, our fiber optic technology has been proven time and again to solve many of the problems encountered in network deployment and maintenance. We have also been able to use HLC as the foundation piece to develop unique and passive fiber optic solutions for our customers.

Products:

- ▶ **MPO / MTP® Distribution & Assemblies**
- ▶ **Singlemode & Multimode Premise Jumpers**
- ▶ **Indoor Trunk Assemblies**
- ▶ **Fiber Distribution**
- ▶ **OSP, Indoor / Outdoor, Node Cables**
- ▶ **WDM & Couplers / Splitters**
- ▶ **Test & Verification Assemblies**

TYREX
GROUP, LTD.

OUR DIAMOND DISCIPLINES

Prosperity To Longevity

Without sustained economic prosperity, none of the other Diamond Disciplines would receive merit or recognition. Although not the most important discipline, it is essential as a foundation to provide the resources for other disciplines to follow.

Employee Well-Being

Our employees are the cornerstone of our success, and supporting each and every TyRex employee has been a priority since day one. The contributions our employees make to the success and longevity of the TyRex Technology Family are encouraged and recognized monthly by each of our companies, as well as collectively at our annual TyRex Founders Day celebration.

Community Citizenship

We believe that our companies are residents, not renters, and that each of our companies have a responsibility to their respective communities. By fostering a caring relationship with the communities in which our employees reside through a variety of volunteer efforts and donation drives, our employees thrive.

Entrepreneurship At Every Position

Strength, courage, confidence, passion, and commitment are at the heart of every entrepreneurial spirit. All TyRex employees strive to be professional entrepreneurs by exercising their initiative and taking advantage of market opportunities in an effort to become not just successful, but special.

Professionalism

The TyRex Technology Family sets itself apart by striving to reach the highest levels of performance in technical, ethical, and service standards. It is our goal to deliver the best experience to our customers and business partners with each and every interaction.

Imagination And Innovation

The power of the TyRex Technology Family lies in our collective ability to provide customized solutions for the entire life cycle of your product. These creative solutions likewise extend inward, where we encourage the utilization of new technology and new ideas to improve efficiency, reduce cost, and increase revenue.
